

Students' accommodation building facilities at the University Campus of Alexandroupolis

PROJECT TITLE

Students' accommodation building facilities at the University Campus of Alexandroupolis

LOCATION

Alexandroupolis, Thrace

CLIENT

Dimokrition University of Thrace

DESCRIPTION

Scope of the project is the carrying out of the **Architectural, Structural and Electrical Mechanical designs and studies** and the **preparation** of the **Tender Documents** for the Building Facilities for the Accommodation of the Students at the University Campus of Alexandroupolis.

The project deals with the erection of a **11-buildings complex** totaling a surface of approximately **18.900m²**. The building programme includes areas for **circulation, dwelling (600 rooms), reception and entertainment, offices and ancillary areas**.

The plot in which the students' accommodation facilities are to be developed is **situated** on the **higher point** of the Alexandroupolis University Campus, looking at the sea and the city of Alexandroupolis and a south – eastern orientation. Taking advantage of the plot inclinations, the design has provided for **2-level** and **3-level** dwellings so that unobstructed view is ensured.
