

Students' accommodation building facilities and restaurant at the University campus of Orestiada

PROJECT TITLE

Students' accommodation building facilities and restaurant at the University campus of Orestiada

LOCATION

Orestiada, Thrace

CLIENT

ETEO S.A.

DESCRIPTION

Scope of the project is the carrying out of the final and implementation **Architectural, Structural and Electrical – Mechanical designs and studies** for the Student's Accommodation Building Facilities and the Restaurant at the University Campus of Northern Orestiada.

The complex is intended to cover the needs of **housing** and **feeding** of the students, as well as to provide for the necessary supporting and ancillary areas including the guard's house and 5 rooms for overnight service of the employees of the "Dimikriton" University. The complex is constituted of **two buildings** arranged within a plot of approximately 3.100m².

The two buildings, totaling a surface of about **4.370m²**, are the following:

- The **main building** of the students **dwelling**s, which is developed in four levels (basement, ground floor and storeys).
- The **restaurant – kitchen** building along with the guard's house, which is developed in three levels (basement – ground floor – floor). The restaurant's capacity is for serving 200 people.

The buildings have a bearing structure of reinforced concrete and tiled covered wooden roofs seated on reinforced concrete slabs.

The landscaping of the external public areas provided for the central pedestrian path covered with pale slabs surrounded by grass, the planted areas, the car parking areas and the street serving the catering and garbage trucks.
